

Algebra “Deuce’s”

Algebra 2 is going well this year. Student Bryson G. is enjoying learning all about monomials, binomials, trinomials, polynomials and all types of nomials! Math has never been his favorite subject, but Bryson is displaying his sharp aptitude for putting numbers where they are supposed to be. His attendance is great and he completes all of his assignments on time. “Mr. Conner and I have a good time in math, and we crack a lot of jokes.” Bryson has a great sense of humor and “we can find something funny in each activity that we do!” Thanks Bryson!!!
