

Every first and third quarter Mr. Meyer gives students the chance to earn their learners permit but more importantly start that dream for every teenager..... Drivers Education

Now this year is a little different than years past, Mr. Meyer is used to being in front of the class lecturing about where exactly to stop at a stop sign. However, this year Mr. Meyer had to take things to a different level. Mr. Meyer had to make Drivers Ed not only digital but as close to virtual as possible. Teaching Drivers Ed remotely along with Physical Education, is one of the toughest things to do. Drivers Education and Physical Education are two subjects that require interpersonal interaction.

Mr. Meyer's Driver Education classes are taken through the world of Driver Education in one quarter. Which is a lot of information in a very short amount of time. With the end game being the opportunity to gain a learner's permit.
